### MATRIMONIAL

Caldwell-Diggins.

Robert D. Caldwell and Miss Leatha M. Diggins, both of Jacksonville, surprised their many friends Thursday morning, by going to Springfield where they were married at eleven o'clock by Rev. Mr. Neumeyer of the Methodist church. The bride is employed at the Illinois Telephone office and is the daughter of Mrs. Ida Burnhart and she has been making her home at 738 East street. The groom is the son of Mr. and Mrs. L. W. Caldwell of 1406 Lafayette avenue, where they will make their home for a short time. He is employed by the Jacksonville Automobile company. The young people intended to keep their marriage a secret till the end of the month but their friends learned of the marriage in the afternoon.

### ASSTANT MANAGER.

S. M. Campbell, who recently became proprietor of the Pacific hotel has appointed George W. Scott as assistant manager. Mr. Scott has been with the Pacific for several years and is well liked by the traveling public. That he is to remain with the well known hostelry will be good news to his many friends.

Mr. and Mrs. Henry Dettinger helped represent Chaplin in the city yesterday.

The latest contribution to school board discussion comes from a fourth ward resident who wants a branch school established for children who live in the extreme southern and southwestern portions of the ward. He argues that it is a hardship for children who live far out on Lincoln avenue to be forced to walk to the building on Kosciusko street. There is no denying that the distance is great and the matter has been brought to the board's attention at various times but it does not seem likely that in the present status of the board's finances that any relief can be given this year.

Mr. Bryan as the apostle of "persuasion" as opposed to "force" makes appeal to his countrymen to join him in an effort to bring about such influences that all men and all nations will forsake war. The creed is strictly biblical and orthodox but the average man will feel that the day for the full realization of this gospel of peace has not arrived. It seems to be an ideal, a hope which must be many years in the making, and is put forward at a time when the ear of the nations is not likely to be open.

Men believe that there will be millennial days when peace and good will reign, when there will be neither sorrow nor crying upon the face of the earth, but those days are not yet at hand. Neither is the day of universal peace, of universal disarmament at hand and Mr. Bryan is ahead of his day.

### The Springfield Way.

Business in Springfield has been so quiet this year that by practically common consent the merchants there have agreed not to follow the custom of recent years and close their stores Wednesday afternoons during the summer months. For several years past banks and practically all mercantile houses have closed at noon on Wednesday. This year the argument has been advanced that it is not fair to visitors from the country and elsewhere who go to Springfield to close the stores for a half day and that considerable inconvenience is thus given patrons of the stores. As a concession to employees it has been decided to close the stores at 5:30 each day instead of 6 o'clock during the summer months, as the proprietors feel that this will be of some benefit to their employees and will not result in loss of business or inconvenience to the public.

### The Rocking Chair Method.

Some of Mr. Bryan's sharpest critics who deride his peace plans will no doubt be likening his methods to those of a school teacher at O'Fallon. There recently a half holiday was granted all of the school children in honor of Miss Amelia B. Carriel's fortieth anniversary as a teacher in the schools. Nearly 300 of her former pupils took part in the parade in her honor and special exercises were held in the city park. Miss Carriel, aside from her success in instruction, has made a remarkable record in discipline and as a pacifist.

It is related that it has been her long established custom to use the rocking chair method of discipline. Whenever a boy is disobedient Miss Carriel picks him up in her arms and after being certain that she has exposed him to the gaze of all his fellow students, sits in a rocking chair and gently rocks him to and fro just as a mother would do with a baby. The method is said to have produced wonderful results. But one rocking is all that has been necessary to calm down the spirits of the most mischievous of the boys.

### Why Endanger Our Countrymen?

While it seems that Mr. Bryan's course in resigning just at the present time displayed questionable patriotism to a good many fair-minded people there seems a lot of truth in certain reasons that he has set forth in an open letter explaining his resignation. Mr. Bryan says that he was unable to secure President Wilson's approval of his contention that it was proper to warn all Americans in view of the announcement that Germany had established a war zone in which her submarines were operating, that they as Americans should not take passage on foreign merchantmen or an any merchant ship carrying ammunition and thus endanger their own lives and also increase the liability of their country getting into a conflict with Germany.

Mr. Bryan mentions in support of his contention that President Taft warned Americans to leave Mexico and that like warnings have been issued at other times to American residents in foreign countries where it appeared that they were surrounded by dangers which menaced them personally and their rights as citizens.

There is a good deal of common sense in this argument of Mr. Bryan's and while the former secretary may not have evidenced the truest kind of patriotism in his unwillingness to reconcile his judgment with that of his superior, yet what can be said of the patriotism of those private cit-

izens who insist upon traveling in the merchantmen of foreign nations and thus greatly increase the problems which confront their country?

It is conceded that all Americans have the right of life, liberty and the pursuit of happiness, but it does not seem reasonable that this liberty should include the unnecessary taxing of any chances which may lead to a great loss of life and property for their countrymen.

### A Good Business Plan.

This is acknowledged to be the quiet time of year in Jacksonville and a number of merchants are wondering if it wouldn't be a good time to inaugurate a "settle up week." This plan was recently tried out by the merchants of Kaukon, Iowa, and produced satisfactory results. For two weeks preceding the merchants advertised in the papers and by hand-bills distributed from house to house and door to farm. They followed this by sending out statements to patrons calling attention to the approach of "settle up week."

It was explained that the money collected would be passed on to creditors and that ultimately the plan would result in good for the entire community. Everyone was treated alike and this enabled the merchants to shake up those who were always slow in paying their bills without making them feel that they were being singled out. Signs reading "Have you paid your bills today?" were posted throughout the city and in other ways a great deal of publicity was given to the plan. The first two days of the week over 500 accounts were paid and before the end of the week the number had reached 2,000 and more than \$40,000 had been paid in. Altogether, the results were highly beneficial to the business of the community and when it was done nobody had been seriously inconvenienced.

### Must Better Fire Fighting Facilities.

The report of the fire fighting facilities of Jacksonville as made to the city council by a representative of the Illinois inspection bureau is printed elsewhere in the Journal this morning. The facts set forth are of vital interest to every property holder in Jacksonville. The inspection was made by F. R. Daniel, an engineer for the bureau, and on the basis of his inspection certain recommendations are made to Jacksonville which must be concurred in if the present insurance rates in Jacksonville are continued.

Jacksonville is now in the third class and unless certain recommendations for bettering fire fighting facilities are followed out, the city will be put in the fourth class and an increase in rates will follow. By making still other improvements it will be possible for Jacksonville to advance to the two and one-half class and a reduction from present rates would follow.

The Illinois inspection bureau furnishes the data from which the fire insurance companies fix their rates, and the extensive report made by Mr. Daniel as an expert is really a very valuable document. It can be considered because the Illinois inspection bureau has an established reputation and its reports are of acknowledged value. To secure such a report or survey by an expert on one's own account would have caused Jacksonville a considerable expenditure.

According to the report considerable improvement must be made in the equipment of the fire department speedily and the task will therefore confront the city council of securing funds for the purchase of this necessary equipment. There may be some citizens who will not approve of the idea of power driven additions to the fire department, but after reading the report made by the bureau it will be readily apparent that the expenditure of some money by the city in making needed improvements will really be in the interest of economy. The tax payers must pay the bill if new equipment is purchased, and they also must pay the bill if insurance rates are increased, and the latter bill will be larger than the former.

### U. S. Note Has No Warlike Tone.

The U. S. note to Germany, courteous and firm in its demands, is made public this morning. To the average reader there seems to be nothing in the phraseology which could possibly be offensive to German sensibilities and the question arises as to what Mr. Bryan saw in the note that he could not reconcile with his peaceful views.

Because of the dramatic resignation of Mr. Bryan from the cabinet and the announced fact that his action was taken because he was not willing to attach his name to the note to be sent, the public at once jumped to the conclusion that the demands upon Germany were couched in such language that unless immediately met, war would come. A reading of the note on the contrary gives no intimation of what the U. S. will do in case the demands are not met and furthermore the demands seem to be nothing more than a reiteration of those included in the former note and possibly with less of veiled threatening.

In brief the U. S. simply states that it will insist upon the rights of its citizens to travel upon the seas in merchant ships and that the ancient law which requires that a merchant ship unless resisting is not a proper subject for attack until passengers and crew have been removed to safety, be observed. The government declares its information is wholly satisfactory that the Lusitania was not armed but invites Germany to produce any evidence it may have that U. S. officials were negligent in examining the vessel and giving clearance as a merchant vessel.

There is the thought that all demands are made in the name of humanity and underlying all is the continued suggestion that nothing would be considered a greater honor by the United States than some one word from the Imperial government which might be looked upon as indicating a willingness to entertain a proposal for bringing the European conflict to a close.

A well worded, strong message, has the government sent and yet there is no warlike ring about it. Evidently Mr. Bryan's disagreement with the president's policies had other foundation than this.

### Women In The News

Oiloton, Okla.—The rough huts of the oilfield, the devil-may-care atmosphere of the new settlement, and the tough characters from the camps have no terrors for Miss Terese Poirier, who has set this town by the ears by throwing up her nice job in a New York office and joining the oil-tank crew of Clinton. She is on the job in the yards of the Santa Fe Railroad, checking up the material arriving for the construction of big storage tanks. Each of the big tanks holds 55,000 barrels of oil and it takes seven cars to haul the necessary material. The girl has outdone all the men checkers ever engaged in the work, and she knows exactly the amount of material taken from the cars by each teamster from a car. She checks up the work of 100 wagons daily. Although used to the polished ways of the city, she has found favor with the "skimmers" who are hired by the tank company. These tough characters have made her the queen of the camp, and she is as safe with them as in her New York flat. According to her boss, she is the best checker in the oil fields, and never needs to carry a gun. On her hours off, she rides her horse in the outskirts of the camp, and is saluted everywhere by the "bad men".

Topeka, Kas.—A Kansas girl who defied the gods of war is today a bride in Posen, Germany, unless fate played against her at the eleventh hour. Miss Grace Stelter, formerly a teacher in the Topeka High School, barely escaped death on the Lusitania, thanks to the delay in receiving her passport. She finally sailed from New York on May 11 on the Dutch liner Potsdam for Rotterdam, enroute to Germany, where she was to have joined in wedlock one of the Kaiser's officers. Her romance is told throughout Kansas. It was while she was studying at Malburg University, in Germany, a few years ago that she met Fritz Kellerman, who was later sent as exchange professor to the University of Kansas. The dashing young German recently completed his studies and was on his way to America and his sweetheart when the war broke out. He volunteered, was sent to the front, and has won the Iron Cross. He is now assigned to the officers' school at Posen, and it is there that the wedding is set, if the American girl makes her way safely through the barricaded frontier of Holland. News of the successful culmination of her long and dangerous trip is eagerly awaited.

Henry Dietrick of Nortonville, who is at Our Savior's hospital, where he underwent an operation for appendicitis is doing nicely and expects to go today to the home of his grandfather, Milton Kelly on South West street for a visit before going home.

Ruth Bradley, the 12 year old daughter of Dr. and Mrs. G. R. Bradley underwent an operation for appendicitis at Passavant hospital Thursday.

### FUNERALS

#### Rexroat.

The funeral of Mrs. William Rexroat was conducted at 1 o'clock yesterday afternoon from the M. E. church in Arenzville, in charge of Rev. Annie Shively assisted by Rev. Mr. Cain and Rev. W. P. Bowman. There was a large attendance of friends present as Mrs. Rexroat was a woman widely known in that community.

Music was given by Mrs. A. E. Streeter and Mrs. Edward Shrewsbury, with Mrs. Herman Rekamp as pianist. The flowers were brought to the church in abundance by friends and Mrs. David Lancaster had the arranging of them.

The remains were laid to rest in the Arcadia cemetery and the bearers were Messrs. Jack Rexroat, Arthur Wood, Edward Houston, J. A. Weeks, John Irving and Carl Thornley.

The picture as a whole is a work of art. The direction has been wonderfully skillful and clever, and from first to last the picture holds one's interest and enthusiasm.

The final scene brings a happy solution, and the spectator shares the gladness felt by the sweethearts when their shipwreck experience is ended and they once more reach civilization and home and friends.

A shipwreck provides the girl for the love story. The spectator sees mere acquaintance develop into a romantic attachment amid conflict and cruelty and strife. Together they face each hardship and trial with sublime faith and confidence in each other, and courage which love alone could inspire. Through the many vicissitudes of the situation they toil and struggle and suffer and each added trial but brings them into completer understanding and sweeter companionship.

Through the many vicissitudes of the situation they toil and struggle and suffer and each added trial but brings them into completer understanding and sweeter companionship.

The picture as a whole is a work of art. The direction has been wonderfully skillful and clever, and from first to last the picture holds one's interest and enthusiasm.

The final scene brings a happy solution, and the spectator shares the gladness felt by the sweethearts when their shipwreck experience is ended and they once more reach civilization and home and friends.

A shipwreck provides the girl for the love story. The spectator sees mere acquaintance develop into a romantic attachment amid conflict and cruelty and strife. Together they face each hardship and trial with sublime faith and confidence in each other, and courage which love alone could inspire. Through the many vicissitudes of the situation they toil and struggle and suffer and each added trial but brings them into completer understanding and sweeter companionship.

## Who Will Manage Your Estate?

SOMEONE will have charge of your affairs after you are gone. You should name that person in a will; otherwise a court will appoint someone—perhaps one not familiar with your estate.

If you name an individual, he may die in the midst of administering your estate. If he does survive, he may be taken sick, move away or become overburdened with his own affairs.

If you do not provide for the settlement of your estate by will, it will be administered under laws made to fit every estate—it will have to be settled in a specified time. Your estate may require time to realize its full value—may require such administration as can only be had under your written authority given by a will.

Appoint this company executor of your will and trustee of your estate. It makes a business of handling estates, has the facilities for doing so, is always accessible, is permanent and safe. The cost is no more than would be paid an individual in like capacity.

WILLS CAREFULLY DRAWN

### SOCIAL ADVANTAGES OF GOOD ROADS

#### CO-OPERATION AND ITS MAN- FOLD BENEFITS.

Abundant Proof in Evidence of the Value of Working Together—"All for All" Is Better Motto Than "All Against All."

The Social Advantages of Good Roads (By W. H. Rayner, Department of Civil Engineering, University of Illinois.—Article II).

The Benefits of Co-operation. As to the effectiveness of co-operation, we have abundant proof. We are told that in the process of evolution man ceased his physical and began his mental and spiritual development at the time when he learned to co-operate with his neighbors in self-defense or in conquest of a common enemy. And the law of the survival of the fittest in physical affairs became subject to modifications at that instant.

The question may well be put, in what condition think you would these United States find themselves today if our territory had been developed by several European powers? Or perchance as a number of separate and independent states? And if we discern correctly the trend of affairs in our national life, it is certain that co-operation is driving out competition. We are coming to believe that "all for all" is a better doctrine than "all against all."

One of the best examples of agricultural co-operation is given by the heroic Belgians. A review of her achievements shows very clearly the advantages of farmers working together for the common good.

Thos. Beeley is carrying his hand in a sling owing to an accident with a hay fork.

A silver medal contest was held at the Presbyterian church in Aransasville, Tuesday evening, June 8. The medal was awarded to Miss Lucile Henry of Woodson. Miss Lela Barber of this city, was one of the contestants, among others who attended from here were: Mrs. Will Summers and daughter, Iris, Earl and Reva Hyde, May Wilson, Elmo Gallaway and Harold McLain.

Mrs. Achman Cline and children departed Tuesday for Jacksonville to make their home with the former's father, Thomas Brownlow. Mr. Cline will go later.

Rev. Will McIntosh of Bowen, visited Tuesday with his brother, Rev. S. A. McIntosh.

Rev. S. A. McIntosh and wife are visiting their sons in Chicago this week.

The Meredosa Concert Band is planning for an excursion on the steamer Columbia to Kampsville, July 13th.

Mr. and Mrs. W. A. Stepan have for their guests Mrs. Chas. Macin of Westminster, Md., and Wm. H. Magin of Baltimore, Md. Miss Stephen and Mrs. Magin are sisters.

The Meredosa Concert band has ordered new uniforms and are expecting to appear in them at an early date. The band is progressing nicely and our citizens are very proud of such an organization.

Dr. J. H. McIntosh was a business visitor in Chicago this week.

The new steamer Peoria is expected in Meredosa Friday morning on its way from St. Louis to Peoria where it will be christened.

W. T. Hedenberg is assisting Editor Beard of the Bluffs Times this week.

Those in attendance at the funeral of George W. Gilliland from a distance Tuesday were: Elward Gilliland of Aransasville; Annon Gilliland of Quincy; Mr. and Mrs. Austin Gilliland and daughter, Mrs. Ruth Smith; Mrs. Ellen Taylor and Mr. and Mrs. Ross Long of Jacksonville; Mrs. J. E. Howard of Moberly; Mrs. Ella Osborne and daughter, Miss Annie of Mt. Sterling; and Mrs. Susie Scroggin of Timewell.

"Even more important than the educational help the Belgian farmer accepts from those who are able to give it, is his co-operation with his fellow cultivators. There is hardly a village which has not got its co-operative society and hardly a society which does not contain the majority of men in the neighborhood who are eligible to membership.

Some of the larger of these societies have libraries and museums, carry on research and organize local societies for mutual insurance, purchase, sale, improvement of stock and similar undertakings.

The productivity of Belgian agriculture is the best test of the effect which the educational efforts of the government and the co-operation of the cultivators have had upon the use of the land. Not only is a greater proportion of the cultivable area devoted to profitable crops than in most foreign countries, but in the yield per acre of the principal crops she heads the list in nearly every instance, including the cereals, potatoes and root crops, as well as the number of cattle per square mile of territory, and she excels in the smaller branches of agriculture and horticulture."

All this co-operation which has proved to be so effectual and beneficial is frankly admitted to be made possible by means of easy communication: railways, tramways and good roads. And lest we should lose sight of our main contention that the benefits of good roads are social rather than economic, we should mark this statement by Mr. Rowntree, when summing up his remarks on co-operation: "that the movement is more important as an education than as an economic force."

ORDERS CAVALRY TO  
REMAIN ON BORDER

El Paso, June 10.—Orders under which the 15th United States cavalry was to sail for the Philippines within the next few weeks, were suspended on telegraphic instructions from the war department at Washington. The 15th cavalry was ordered to remain on the border.

GRANTS FURTHER REPRIEVE.

Springfield, Ill., June 10.—Governor Dunne today granted a further reprieve to Nikolai Gavrilovich to Friday, July 16th, 1915. Gavrilovich was sentenced by the circuit court, Madison county to be executed on April 16th, for the murder of his wife, Angeline Gavrilovich.

### GARZA IS DEPOSED AS HEAD OF GOVERNMENT IN MEXICO CITY

Lagos Chazaro, a Villa Delegate from Chihuahua, is Elevated to the Provisional Presidency.

Washington, June 10.—Roque Gonzales Garza, head of the Villa Zapata government in Mexico City, was deposed June 9th by the convention in session there. Lagos Chazaro, a Villa delegate from Chihuahua, was elevated to the provisional presidency. State department dispatches today told of the change.

Further explanation of the significance of Francisco Lagos Chazaro's election as provisional president of the convention government in Mexico City—which has the support of the Villa-Zapata factions—was awaited with interest tonight by the administration officials. Chazaro succeeded Gonzales Garza who was named provisional president when Estallo Gutierrez fled several months ago.

He was governor of Vera Cruz state under Madero but now is described as a Villa delegate in the convention from the state of Chihuahua.

The situation around Leon, where Carranza and Villa forces are believed to be fighting for mastery in central Mexico, divided interest with the Villa-Zapata governmental changes. Definite news of the trend of the battle still was lacking but reports that General Obregon, the Carranza leader, had been seriously wounded by shell fire as to require amputation of an arm, were confirmed in dispatches to the Carranza agency. While it was said at the agency that Obregon's condition was favorable there was no attempt to conceal fears that his wound might prove fatal. Obregon's loss, it was admitted, would prove a serious handicap to Carranza's military forces for he has proved to be their most efficient and successful leader.

#### KERNELS FROM KORN BELT (By Sol E. Quizer.)

By Sol E. Quizer.  
The man who waits for a law before he does his duty as a decent citizen will never be missed from the community.

Interest and plenty of it is the best capital with which a young man can start.

The middleman rose at 3 a. m. To sort out potatoes and such; The farmer at 4 a. m. turned out Old Dobbin and Ned to hitch.

The groceryman was on hand at 5. To fix up his window display; This business of getting folks plenty to eat

Is a serious one in this day.

NAME BENTLEY CAPTAIN.

**HOUSE FURNISHINGS**

231 East State Street

**Extra Specials for This Week Only**

We are constantly on the watch for standard merchandise at special prices and the following are examples—These are real bargains—worth at least 25 per cent more than we ask:

**MISSION LIBRARY SUITS**

Fine hand made furniture, quality could not be better. Quartered fumed oak, Spanish leather Duofold bed davenport, 2 extra large Rockers. Perfect furniture in every way, built to sell at \$75.00—Extra special at \$49.50.

**Mahogany Suit-Davenette and Two Rockers**

Genuine Spanish Leather perfect goods, all hand made and worth at least \$50.00—Special price this week only \$34.50.

**DRESSER IN FUMED OAK**

Jacobean style perfect in detail and workmanship and equal to any dresser you ever saw at \$27.50—Special this week \$19.25.

Chiffonier to match above dresser at \$18.25.

**These Are Special Prices for Cash.  
No Further Discount Allowed.**

If you have been looking for a baby carriage and the prices seem high come to our store—the Sidway is the best carriage made yet we sell them for less money.

**We Advertise to Save You Money, and We Do What We Promise.**

**2 Drops of "GETS-IT",  
Out Comes the Corn!**

**It's the World's Wonder; Never Fails.**

You'll make goo-goo eyes at your feet, after you use "GETS-IT," and you'll find the place where those blankey corns used to be, just as smooth as your cheek.

"How Wide Is a 'GETS-IT' Smile? Well, a Good Deal Over 2 Feet!"

There's no corn or callus among the millions of feet in the world that "GETS-IT" can't get off them. "GETS-IT" is the new way, the simple, common-sense, sure way. It does away with greasy ointments, salves, pads, cotton rings, harnesses, knives, scissors, razors, files, and the limping and the painful pincion-toe walk of so many corn-pestered people. All you do is put 2 drops of "GETS-IT" on—the corn shrivels up—and good by. Nothing else in the world like "GETS-IT". Millions are using it. There's pain, no trouble, no changing of shoes because of corns.

"GETS-IT" is sold by druggists everywhere, 2¢ a bottle, or sent direct by E. Lawrence & Co., Chicago.

Sold in Jacksonville and recommended as the world's best corn cure—by Armstrong's Drug Store—J. A. Obermeyer.

**Civil and Mechanical  
Engineering**

Water Supply, Sewerage, Drainage, Power Plants, Pavements, Bridges, and designs of reinforced concrete construction. Preliminary investigations and estimates, surveys, plans and supervision.

Ayers Bank Bldg., Jacksonville, Ill.

**HONORING LINCOLN'S MEMORY.**  
Invitations have been sent out reading, "The Springfield Chapter Illinois Daughter of the American Revolution, requests the honor of your presence at the unveiling of a tablet marking the place where Abraham Lincoln made his farewell address to the citizens of Springfield, Ill., Friday, June 11, 1861. The exercises will be held Monday, June 14, at three o'clock p.m., corner of Tenth and Monroe streets."

A time of much interest is anticipated and a good many from different parts of the state are expected.

**LESSONS DURING JUNE.**

Prof. Henry V. Stearns, director of the Illinois College of Music of the Woman's college will be here during the month of June and continue his class of students. Those wishing to join please notify him or the college.

Miss Elsie McEvers and niece Nancy Jane Black arrived yesterday morning from Chicago for a visit with Mr. and Mrs. Cicero McEvers.

**SAY CITY MUST EQUIP  
FOR FIRE FIGHTING**

**CHANGES ARE RECOMMENDED  
BY INSPECTION BUREAU.**

Action Necessary if Present Insurance Rates are to be Continued—Increased Costs Will Come if Changes and Additions are Not Made in Fire and Water Departments.

Some time since F. R. Daniel, an assistant engineer for the Illinois Inspection Bureau, visited Jacksonville and spent several days looking over the insurance companies city's fire fighting facilities. At that time Mr. Daniel made an informal report of conditions as he found them and recently through the Bureau has sent a formal report of his finding. Copies of the report are in the hands of Mayor H. J. Rodgers and J. E. Martin, Commissioner of Health and Safety.

The facts set forth in the report will be brought to the early attention of the City Council and as the matter is of great importance there can be no question but that speedy action will be taken to meet as nearly as possible the recommendations of the report, since these recommendations have a vital bearing upon all questions of insurance rates in force in the city.

Ordinances—No building laws. Local fire preventive measures are lacking and such laws as exist are poorly enforced. The requirements of the state fire marshal's office are apparently well enforced.

Water Works System.

Water Supply—North Station: Seven driven wells, four of which are in service; two 9 inch and one 19 inch, ranging from 62 to 78 feet in depth. One of the unused wells has square dug hole 42 feet deep with an 8 inch drilled hole to a depth of 109 feet. The static level of the water in wells is approximately 32 feet below the surface.

The four operating wells are equipped with American Well Works deep well pumps, driven by a 7 1/2, 15 and two 20 horse power Westinghouse, 220 volt, 3-phase, motors. These pumps discharge into flow lines into a sand chamber, thence by gravity into a receiving well 25 feet in diameter by 10 feet deep. This well can be filled to a depth of 6 feet and only 2 1/2 feet of this depth can be drafted by the pressure pumps.

Present capacity at this location is estimated at approximately 1,000,000 gallons of water per day.

South Station: The Mauvalaister creek, which generally runs low in the summer and Morgan lake, which has a capacity of approximately 60,000,000 gallons of water in storage. Water is impounded in creek by a wooden dam with a 16 inch tile line from concrete screen chamber to receiving well. A 16 inch tile and cast iron line connects receiving well with Morgan lake, which is approximately 16 feet higher than the pump station. The supply from this works is generally polluted and is used only when the supply from the north station is inadequate.

System—Combined gravity and direct pressure system owned by the city and installed in 1874. Average domestic consumption approximately 1,000,000 gallons per diem. Maximum daily consumption approximately 1,500,000 gallons per diem. Estimated fire flow 5,803,200 gallons per diem; estimated rate of domestic consumption and fire flow 6,802,200 gallons per diem; reservoir capacity, 2,700,000 gallons; maximum pumping capacity 7,000,000 gallons per diem, with available water supplies much below this figure. All services (1475) are metered. Plant is under the supervision of Joshua Vasconcellos, commissioner of public property.

Pumping Station—North Station: Located in the northeast section of the city, at the end of Allen avenue, near Oak street. One story frame building, with wooden floor and plaster roof. Stove heating. Metal pipe through side of building.

Streets—Approximately 32 miles paved; the remainder in fair to good condition. The principal streets in the mercantile district are generally 50 feet wide, the side streets being 40 feet wide. Streets in the outlying district are generally 50 feet in width with a maximum of 50 feet. All are well lighted at night by electric lights.

Topography—Rolling. Maximum grade 2 1/2 per cent.

Congested District—The eight blocks surrounding public square are generally solidly built, with solid frontage extending on radial streets from one to two blocks from square. The average height ranges between two and three stories with a maximum height of seven stories (fireproof). Construction is principally brick with approximately ten per cent of frame.

South Station: Located in the southeast portion of the city at the end of Superior avenue, one story brick building; original portion having been erected in 1874. Roof, slate on wood trussing with frame sheathing on under side. Floors, wood on joist-in engine room, concrete in boiler room. Heating, steam. Lighting, electric and oil torches. Interior protection, none.

Exterior protection, one double hydrant in yard, equipped with 100 feet of 2 1/2 inch hose. Working force consists of one man on each of three 8-hour shifts. Communication is had by means of telephone.

Pumps—North Station: One Fairbanks-Morse, 5 inch, three stage, centrifugal pump, capacity 1,000,000 gallons per diem, direct connected to a 7 1/2 horse power 3-phase, 2300 volt Fairbanks-Morse motor; suction 8 inch, discharge 6 inch. One Fairbanks-Morse, 3-stage, 8 inch centrifugal pump, capacity 2,000,000 gallons per diem, direct connected with a 20 horse power, 3-phase, 2300 volt, Fairbanks-Morse motor; suction 10 inch, discharge 8 inch.

These pumps were installed about 1914 and discharge into a common 10 inch header. Separate suction lines connect with a brick and concrete receiving well. Average lift approximately 5 feet; maximum lift 7 1/2 feet. The 1,000,000 gallon pump is operated on an average of nineteen hours per day against a head of 95 to 100 pounds.

South Station: One Worthington compound, duplex pump, capacity 2,000,000 gallons per diem, installed

tem, among which are the proper development of the water supplies at north pumping station, together with adequate storage capacity to supply pumps and a feeder main, connecting this station with the present feeder system.

Fire Department—Supervision is good. Discipline is fair, apparently due to the political influence in the department. It has been the general custom in the past for new administrations to make changes in the department. Practice drills are not regularly maintained. Apparatus is of old style, inadequate and untrained. Steam fire engine service is relied upon for large fires. Hose is of a fair quality but not sufficient in amount and is not regularly tested. Good inspections of buildings with respect to fire conditions are regularly made by the chief.

Equipment for handling heavy streams, together with auxiliary apparatus is lacking. The contemplated installation of major apparatus is highly desirable, particularly in view of the area required to be covered by the single fire station.

Fire Alarm System—The system is not kept in working order. Boxes are of two types. The overhauling and placing into operation of the system is most desirable. The distribution of the fire alarm boxes is not good, additional boxes being necessary. A competent electrician in direct charge of the system could readily maintain same in a working condition. The arrangement for transmitting alarms over telephone is good.

Ordnances—No building laws. Local fire preventive measures are lacking and such laws as exist are poorly enforced. The requirements of the state fire marshal's office are apparently well enforced.

Water Works System.

Water Supply—North Station: Seven driven wells, four of which are in service; two 9 inch and one 19 inch, ranging from 62 to 78 feet in depth. One of the unused wells has square dug hole 42 feet deep with an 8 inch drilled hole to a depth of 109 feet. The static level of the water in wells is approximately 32 feet below the surface.

The four operating wells are equipped with American Well Works deep well pumps, driven by a 7 1/2, 15 and two 20 horse power Westinghouse, 220 volt, 3-phase, motors. These pumps discharge into flow lines into a sand chamber, thence by gravity into a receiving well 25 feet in diameter by 10 feet deep. This well can be filled to a depth of 6 feet and only 2 1/2 feet of this depth can be drafted by the pressure pumps.

Present capacity at this location is estimated at approximately 1,000,000 gallons of water per day.

South Station: The Mauvalaister creek, which generally runs low in the summer and Morgan lake, which has a capacity of approximately 60,000,000 gallons of water in storage. Water is impounded in creek by a wooden dam with a 16 inch tile line from concrete screen chamber to receiving well. A 16 inch tile and cast iron line connects receiving well with Morgan lake, which is approximately 16 feet higher than the pump station. The supply from this works is generally polluted and is used only when the supply from the north station is inadequate.

We believe that you realize the importance of providing adequate and more efficient fire protection for your city. May we not, therefore, hope for your hearty co-operation and support (which should also be extended us by your civic bodies and the public generally) in an earnest endeavor to provide ways and means for carrying out the recommended improvements as listed in the enclosed report?

Thanking you in advance for your interest and co-operation, and also for an early acknowledgment, I beg to remain,

Yours very truly,

E. S. Miller,  
Acting Publisher.

Population—Estimated, 17,000;

U. S. census 1910, 15,326.

Area—Five square miles, approximately three-fourths of which is built upon.

Principal Industries—Woolen mill, clothing factory, bridge works, car shops and small lumber yards. Center of an extensive farming community.

Streets—Approximately 32 miles paved; the remainder in fair to good condition. The principal streets in the mercantile district are generally 50 feet wide, the side streets being 40 feet wide. Streets in the outlying district are generally 50 feet in width with a maximum of 50 feet. All are well lighted at night by electric lights.

Topography—Rolling. Maximum grade 2 1/2 per cent.

Congested District—The eight blocks surrounding public square are generally solidly built, with solid frontage extending on radial streets from one to two blocks from square. The average height ranges between two and three stories with a maximum height of seven stories (fireproof). Construction is principally brick with approximately ten per cent of frame.

**ILLINOIS PHARMACISTS TO  
MEET IN SPRINGFIELD**

Annual Meeting of State Association  
to be Held Next Week.

Illinois Pharmacists will hold the annual State Convention in Springfield next Tuesday and Wednesday.

Headquarters for the several hundred delegates who will attend will be at the St. Nicholas hotel. Social events, business sessions, a minstrel show given by the Chicago Drug club at the Chatterton, a reception at the executive mansion, a dance at the armory building, and an automobile tour of the city for the women will fill the two days. Business sessions will be held in Arden hall.

The program follows:

Tuesday, June 15.

3 p. m.—First business session.

I. P. A. Address by President W. F. Baum. Address by Mayor Baum.

3 p. m.—Card party in parlors, St. Nicholas hotel.

8:15 p. m.—Chicago Drug club minstrel show, Chatterton clera house.

Wednesday, June 16.

9 a. m.—Second business session.

I. P. A. Address by President Beal.

9 a. m.—Annual meeting and election of officers.

2 p. m.—Third business session.

I. P. A. Report of legislative committee.

3 p. m.—Reception, governor's mansion, Mrs. Dunne.

8:30 p. m.—Annual ball I. P. A. and I. P. T. A., state armory. Informal.

## CHICAGO MAKES IT TWO STRAIGHT FROM YANKS

### SOX WIN IN NINTH BY SCORING TWO RUNS

Fournier Gets a Pass. J. Collins a Single, Schalk Sacrifices and Boone Fumbles on Blackburn, Accounting for Winning Tallies.

New York, June 10.—Chicago made it two straight from New York. The visitors won in the ninth by scoring two runs on Fournier's pass, J. Collins single, Schalk's sacrifice and Boone's fumble on Blackburn.

**Boston 6; Detroit 5.**

Boston, June 10.—Boston posted Detroit in a game that called out nearly every element of reserve strength in each team. Tigers and Red Sox hit frequently and pitchers changed often as a result.

Score:

Boston: AB. R. H. P. A. E.

Detroit: . . . . . 001 110 200—5 11 2

Boston: . . . . . 103 000 20x—6 11 3

Boland, Cavet, Dauss, Covaleski and McKee; Baker; Shore, Leonard, Wood and Thomas, Cady.

**Washington, 8; St. Louis, 2.**

Washington, June 10.—Washington defeated St. Louis today. Hoch for St. Louis pitched well but his support faltered at critical periods; seven errors being charged against his teammates.

Score:

St. Louis: AB. R. H. P. A. E.

Washington: . . . . . 100 010 000—2 8 7

Washington: . . . . . 000 210 23x—8 8 2

Hoch, Perryman and Agnew, Johnson and Alusmith.

**Kansas City, 5; Chicago, 3.**

Kansas City, June 10.—The rally started by Chicago in the ninth proved ineffectual, Kansas City winning. Cullop was invincible until the ninth being replaced by Packard.

Score:

Chicago: AB. R. H. P. A. E.

Chicago: . . . . . 001 000 02x—3 9 3

Kansas City: . . . . . 000 210 002x—5 12 0

Batteries—Predergast, Black, McConnell and Wilson; Cullop, Packard and Easterly.

**WRECK ON BURLINGTON.**

Five cars of a Burlington freight train on the Burlington were derailed about a mile south of Concord yesterday. The train was No. 83. It is not known what caused the wreck. No one was injured.

As a result of the wreck passenger trains Nos. 47 and 48 and local freights Nos. 91 and 92 were delayed over this branch and thence by the Wabash to Chapin. Traffic on the St. Louis branch was blocked for several hours.

The Victorian Crosses, given British soldiers for acts of valor, are made from cannon taken from the Russians at Sebastopol.

## CITY MUST EQUIP FOR FIGHTING

(Continued from page seven.)

ed in 1874; suction 14 inch, discharge 12 inch. One Smith-Valee, compound, duplex pump, capacity 2,000,000 gallons per diem, installed in 1897; suction 14 inch; discharge 10 inch.

Pumps have separate suction lines connecting with receiving well. Average lift 8 feet. Discharge into a common 12 feet gated header. The Worthington pump was designed for a pressure of 75 pounds and the Smith Valee for 125 pounds. These pumps operate against a head of about 85 pounds. The Smith-Valee is generally operated.

## Boilers.

South Station—Two O'Brien, return, tubular, boilers, 100 H. P. each; installed in 1897; shells 60 inches in diameter by 12 feet long, having fifty-eight 3 1/2 inch tubes; working pressure 95 lbs. Metal breeching to brick stack. Fair clearance.

Coal is carted to plant, with storage capacity of about three cars. About ten tons are ordinarily on hand. Two feed pumps. Hartford Insurance inspection.

North Station—Electric power at this station is supplied from a municipal electrical plant, located on the outskirts of the mercantile district, through separate transmission line of No. 6, copper wire. Power for well pumps is supplied by this line through two 10 K. V. A. transformers.

Reservoir Standpipe—Reservoir is located on Lockwood Place, between College and Mound avenues; capacity 2,700,000 gallons; built in excavation with brick and concrete lining; 16 inch connection with distributing system; controlled by manual gate valve. A 60,000 gallon standpipe is located adjacent to reservoir and is 17 feet in diameter by 60 feet high—57 feet to overflow. Not in service.

System of Distribution—Single 10 inch main from pumping station west on Superior Ave. to Main street, north on Main St., to public square; continued around the southwest corner of public square to West State Street, thence west to Woodland Place and south to reservoir.

A single 10 inch main from North pumping station, south on Allen avenue to Hockenberry Street.

Remainder of system is principal 6 inch pipe with some 4 inch well tied together. Short length of 8 inch pipe on Main street, from Superior Avenue to Michigan Avenue.

Electrolysis—Slight action is said to have been noticed.

Mains—A approximately 128.5 miles of cast iron pipe, generally of class "C", American Water Works standard, having a minimum depth of cover of 3 feet. Classifications of sizes as follows:

23,854 feet of 4 inch  
107,039 feet of 6 inch.  
1,215 feet of 8 inch.  
17,754 feet of 10 inch.

Hydrants—A total of 211 hydrants, two of which are single; twenty have 2 hose outlets, and one steamer connection and the remainder have two hose outlets. The hydrants having steamer connections have 6 inch riser and 6 inch connection with street mains. The remainder of hydrants have 4 inch risers and 4 inch connections with mains. Twenty three additional hydrants are located on private grounds. All are said to be flushed once per year.

## Ordinances.

No building or electrical laws. Elevations—City datum: 100 feet at public square. South station: 56 feet. North station: 47 feet. Bottom of reservoir: 126 feet. Ground surrounding reservoir: 188 feet (base of standpipe).

Pressures—Domestic pressure in the mercantile district ranges between 40 and 45 lbs.

## Pressure Tests.

## GRACE CHAPEL

Mr. and Mrs. Clarence Mallicoat and daughter of the Union neighborhood spent Sunday with Vinton Bourn and family.

Lloyd Ogle visited Saturday evening and Sunday with relatives in Concord.

The Odd Fellows memorial services at Arcadia Sunday afternoon was well attended from this vicinity.

Mrs. Jesse Loughary spent Saturday evening and Sunday with her daughter, Mrs. Fred Brainer.

Miss Lois Allen of Jacksonville visited over Sunday with home folks and attended Sunday school at the Chapel Sunday afternoon.

D. L. Vorhees, wife and family called at the home of Mr. and Mrs. Warren Blimling Thursday evening.

Children's day exercises will be observed at the Chapel Sunday afternoon, June 26th at 3 o'clock.

Mrs. Joe Gaul and two daughters of Jacksonville visited Wednesday evening.

Note: Attention is directed to tests Nos. 9 and 10 in which hydrant at No. 9 connected to 10 inch main yielded about 25 per cent more water than the hydrant on the opposite side of the square, which is connected to a 6 inch pipe. The comparison illustrates the value of laying large-sized pipe.

Note: These tests were made with gauge attached to hydrant outlet, allowing full flow through corresponding outlet and were made in February 1913.

## Fire Department.

Personnel: Under the direct supervision of J. Edgar Martin, Commissioner of Public Health and Safety. J. C. Woods, Chief, has been in the department six years, four of which he has been commanding officer. Members are appointed by the Commissioner for a term of four years and consist of Chief, ten full-paid men and five call men, who are paid a salary of \$8.00 per month. Members are appointed without physical requirements.

Vacations—Regular members are allowed one hour off for each meal; 24 hours every eighth day and seven days annual vacation. Salaries are paid on account of absence for injuries received while on duty or for sickness.

Supervision—Chief is in direct charge under the commissioner. Discipline is fair. Practice drills are not held regularly. Inspections are made of the mercantile district by the Chief, approximately four times per year. Department members assist in inspection work to a limited extent. Chief works in conjunction and under the authority of the State Fire Marshal.

Equipment—Central station located on West North street and North Sandy street: One combination hose and chemical truck, equipped with a 40 gallon chemical tank, 250 feet of chemical hose and carrying 22 feet of 2 1/2 inch hose, ladders, etc.

11. Provide an automobile, combination hose and pumper, having capacity of at least 750 gallons per minute and carrying 1000 feet of 2 1/2 inch hose, nozzles, deluge set and etc.

12. Place in reserve the present hose truck to be loaded with hose and arranged to be drawn by one of the autos.

13. Increase the number of full-paid men in the department from 11 to 13.

14. Inaugurate a system of drills to be had during seasonable weather, including operation of engine by at least two men and the use of ladder and hose equipment.

15. Provide a deluge set.

16. Provide a total of at least 5,000 feet of good quality, double jacketed, cotton rubber lined fire hose. Hose to be tested semi-annually to at least 175 lbs. pressure.

17. Eliminate from the fire department all political influence, placing members upon a civil service basis.

18. Completely overhaul fire alarm system and provide a competent supervisor. All boxes should be regularly tested at least once per month.

19. Install at least fifteen additional fire alarm boxes, properly distributed.

## Ordinances.

20. Adopt a building ordinance, modeled after the National Building Code and arrange for the rigid enforcement of same.

21. Adopt a suitable electrical ordinance requiring all electrical installations to be made in accordance with the requirements of the National Electrical Code and arrange for the inspection of all work before current is turned into same.

22. Adopt a suitable ordinance, governing the storage, sale, handling and use of volatile oils and explosives.

## ELECTED OFFICERS.

A meeting of the Jacksonville Masonic Benevolent Association was held last night when the following officers were elected:

President—William Newman.  
Vice president—George A. Moore.  
Secretary—C. H. Ward.

Treasurer—H. H. Knollenberg.

The trustees elected include the president and vice president and

Messrs. P. V. Coover, Lee P. Allcott and R. J. Farris.

## General Recommendations.

1. Develop the capacity of wells at north pumping station to deliver not less than 1,500,000 gallons per diem (1000 gallons per minute).

2. Construct at the north pump-

ing station, a storage reservoir having capacity of at least 1,500,000 gallons and so arranged that the maximum suction lift of pumps will not exceed 10 feet.

3. Install 10 inch supply main from the north pumping station to connect with the 10 inch main at public square. The following route is suggested: West in Hockenberry street from Allen avenue to Hackett, thence south in Hackett avenue and Brown street to Jordan street, west in Jordan street to Sandy street, thence south to State street.

4. Thoroughly overhaul pumps at south pumping station.

5. Eliminate, as far as practicable, all combustible material in pumping station.

6. Provide and maintain, detailed records of all hydrants, valves and mains, indicating definite location of same.

7. Adopt as a standard in future installations, hydrants having at least 5 1/2 inch riser and 6 inch connection with street main.

8. Gradually install additional sectional shut-off valves so that it will not be necessary to shut off from service a length of pipe greater than 600 feet to 700 feet in the mercantile and manufacturing districts and 800 feet to 1000 feet elsewhere.

9. Discontinue the use of oil torches at pumping stations.

## Fire Department.

10. Provide an automobile, 6-cylinder, combination light hose and chemical truck, equipped with a 40 gallon chemical tank, 250 feet of chemical hose and carrying 22 feet of 2 1/2 inch hose, ladders, etc.

11. Provide an automobile, combination hose and pumper, having capacity of at least 750 gallons per minute and carrying 1000 feet of 2 1/2 inch hose, nozzles, deluge set and etc.

12. Place in reserve the present hose truck to be loaded with hose and arranged to be drawn by one of the autos.

13. Increase the number of full-paid men in the department from 11 to 13.

14. Inaugurate a system of drills to be had during seasonable weather, including operation of engine by at least two men and the use of ladder and hose equipment.

15. Provide a deluge set.

16. Provide a total of at least 5,000 feet of good quality, double jacketed, cotton rubber lined fire hose. Hose to be tested semi-annually to at least 175 lbs. pressure.

17. Eliminate from the fire department all political influence, placing members upon a civil service basis.

18. Completely overhaul fire alarm system and provide a competent supervisor. All boxes should be regularly tested at least once per month.

19. Install at least fifteen additional fire alarm boxes, properly distributed.

## Ordinances.

20. Adopt a building ordinance, modeled after the National Building Code and arrange for the rigid enforcement of same.

21. Adopt a suitable electrical ordinance requiring all electrical installations to be made in accordance with the requirements of the National Electrical Code and arrange for the inspection of all work before current is turned into same.

22. Adopt a suitable ordinance, governing the storage, sale, handling and use of volatile oils and explosives.

## ELECTED OFFICERS.

A meeting of the Jacksonville Masonic Benevolent Association was held last night when the following officers were elected:

President—William Newman.  
Vice president—George A. Moore.  
Secretary—C. H. Ward.

Treasurer—H. H. Knollenberg.

The trustees elected include the president and vice president and

Messrs. P. V. Coover, Lee P. Allcott and R. J. Farris.

## General Recommendations.

1. Develop the capacity of wells at north pumping station to deliver not less than 1,500,000 gallons per diem (1000 gallons per minute).

2. Construct at the north pump-

ing station, a storage reservoir having capacity of at least 1,500,000 gallons and so arranged that the maximum suction lift of pumps will not exceed 10 feet.

3. Install 10 inch supply main from the north pumping station to connect with the 10 inch main at public square. The following route is suggested: West in Hockenberry street from Allen avenue to Hackett, thence south in Hackett avenue and Brown street to Jordan street, west in Jordan street to Sandy street, thence south to State street.

4. Thoroughly overhaul pumps at south pumping station.

5. Eliminate, as far as practicable, all combustible material in pumping station.

6. Provide and maintain, detailed records of all hydrants, valves and mains, indicating definite location of same.

7. Adopt as a standard in future installations, hydrants having at least 5 1/2 inch riser and 6 inch connection with street main.

8. Gradually install additional sectional shut-off valves so that it will not be necessary to shut off from service a length of pipe greater than 600 feet to 700 feet in the mercantile and manufacturing districts and 800 feet to 1000 feet elsewhere.

9. Discontinue the use of oil torches at pumping stations.

## Fire Department.

10. Provide an automobile, 6-cylinder, combination light hose and chemical truck, equipped with a 40 gallon chemical tank, 250 feet of chemical hose and carrying 22 feet of 2 1/2 inch hose, ladders, etc.

11. Provide an automobile, combination hose and pumper, having capacity of at least 750 gallons per minute and carrying 1000 feet of 2 1/2 inch hose, nozzles, deluge set and etc.

12. Place in reserve the present hose truck to be loaded with hose and arranged to be drawn by one of the autos.

13. Increase the number of full-paid men in the department from 11 to 13.

14. Inaugurate a system of drills to be had during seasonable weather, including operation of engine by at least two men and the use of ladder and hose equipment.

15. Provide a deluge set.

16. Provide a total of at least 5,000 feet of good quality, double jacketed, cotton rubber lined fire hose. Hose to be tested semi-annually to at least 175 lbs. pressure.

17. Eliminate from the fire department all political influence, placing members upon a civil service basis.

18. Completely overhaul fire alarm system and provide a competent supervisor. All boxes should be regularly tested at least once per month.

19. Install at least fifteen additional fire alarm boxes, properly distributed.

U. S. GOVERNMENT ASKS  
GERMANY FOR ASSURANCES

(Continued from page one.)

than one hundred American citizens were among those who perished made it the duty of the government of the United States to speak of these things and once more with solemn emphasis to call the attention of the Imperial German government to the grave responsibility which the government of the United States conceives that it has incurred in this tragic occurrence and to the indisputable principle upon which that responsibility rests. The government of the United States is contending for something much greater than mere rights of property or privileges of commerce. It is contending for nothing less high and sacred than the rights of humanity which every government honors itself in respecting and which no government is justified in resigning on behalf of those under its care and authority. Only her actual resistance to capture or refusal to stop when ordered to do so for the purpose of visit could have afforded the commander of the submarine any justification for so much as putting the lives of those on board the ship in jeopardy. This principle the government of the United States understands the explicit instructions issued on August 3d, 1914, by the Imperial German admiral to its commanders at sea to have recognized, and embodied, as do the naval codes of all other nations, and upon it every traveler and seaman had a right to depend. It is upon this principle of humanity as well as upon the law founded upon this principle that the United States must stand.

## LOOKS TO SEE JUSTICE VINDICATED.

"The government of the United States is happy to observe that Your Excellency's note closes with the intimation that the Imperial German government is willing now as before to accept the good offices of the United States in an attempt to come to an understanding with the government of Great Britain by which the character and conditions of the war upon the sea may be changed. The government of the United States would consider it a privilege thus to serve its friends and the world. It stands ready at any time to convey to either government any intimation or suggestion the other may be willing to have it convey and cordially invites the Imperial German government to make use of its services in this way at its convenience. The whole world is concerned in anything that may bring about even a partial accommodation of interests or in any way mitigate the terrors of the present distressing conflict. In the meantime, whatever arrangement may happily be made between the parties to the war and whatever may be the opinion of the Imperial German government have been the provocation or the circumstantial justification for the past acts of its commanders at sea, the government of the United States confidently looks to see the justice and humanity of the government of Germany vindicated in all cases where Americans have been wronged or their rights as neutrals invaded.

6. Mufflers. It is unlawful for any person using an automobile or motorcycle which has not a muffler in a proper and efficient working condition, and it shall be a further violation to operate such machine within the city with the muffler cut out or not in operation.

7. Owners of bicycles who ride on sidewalks or who have no lights at night time.

8. Persons leaving machines standing on streets outside fire limits should leave at least one light burning.

All traffic rules are to be enforced but the above are the ones the police will make an extra effort to see that they are obeyed.

TRAFFIC RULES WILL  
BE STRICTLY ENFORCEDPolice Department Issues Warning  
to Drivers of All Vehicles.

As there are numerous violations of the traffic ordinance, owners of motor vehicles and of all other vehicles are requested to observe the following rules especially. Beginning June 15 violators of these rules will be arrested:

1. Speed violations, 15 miles an hour the limit.
2. Machines having no rear lights.
3. Machines left standing in street with the machinery in operation.
4. All automobiles from sunset must have two lighted lamps showing white lights at least 200 feet.
5. Driver of any vehicle overtaking a street car which has stopped to take on or discharge passengers shall stop his vehicle ten feet from such car.

6. Mufflers. It is unlawful for any person using an automobile or motorcycle which has not a muffler in a proper and efficient working condition, and it shall be a further violation to operate such machine within the city with the muffler cut out or not in operation.

7. Owners of bicycles who ride on sidewalks or who have no lights at night time.

8. Persons leaving machines standing on streets outside fire limits should leave at least one light burning.

All traffic rules are to be enforced but the above are the ones the police will make an extra effort to see that they are obeyed.

George P. Davis,  
Chief of Police.

ASG RE-ARGUMENT  
OF BECKER CASE

New York, June 10.—The last appeal to the courts of New York for the life of Charles Becker, sentenced to die in Sing Sing prison during the week of July 12th, for the murder of Herman Rosenthal, the gambler, was made today when his counsel, Martin T. Manton, forwarded to the court of appeals at Albany a brief on motion for the re-argument of the case. A copy was filed in the district attorney's office here.

THE Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame backs, rheumatism and all skin troubles, kidneys and bladder in both men and women. If not sold by your druggist will be sent by mail on receipt of \$1. One small bottle is two months' treatment and sold only at a price to be set by the manufacturer. For tea-drinkers from the other States, Dr. E. W. Hall, 226 Olive Street, St. Louis, Mo. Sold by druggists.—Adv.

the note. In German quarters no response from the imperial government is looked for until after Gerhard reaches Berlin, perhaps ten days or a fortnight hence.

One phase of the note which attracted much attention in diplomatic circles was that relating to mediatory steps on the part of the United States looking toward a reformation of warfare on the seas generally. In this connection it was suggested that the chief difficulty might be an instance by Germany that the allies refrain from interfering not only with foodstuffs consigned to her civilian population but with raw materials of all kinds.

**Note Arrives in Berlin.**  
Berlin, June 10.—Via London, June 11.—The first sections of the American note to Germany arrived in Berlin late this afternoon and the other sections began coming in early in the evening. The note will be deciphered and presented to Herr Von Jagow, the German foreign secretary tomorrow.

During the afternoon James W. Gerard, the American ambassador called Herr Von Jagow and was received with him for over half an hour.

The afternoon newspapers announced that the communication had been despatched yesterday afternoon and there was an atmosphere of tense expectation in press and governmental circles regarding the contents of the note concerning which such contradictory statements have been telegraphed from London.

## MAKES EARNESTNESS APPARENT.

The resignation of William J. Bryan as secretary of state had made apparent the earnestness with which the American administration was considering the question of submarine warfare and guarantees for the safety of Americans in this connection. The feeling which had existed in certain quarters that the negotiations could not pass beyond the stage of exchanging notes and expressing views, began to fade rapidly when it was seen the situation was serious enough to lead to the retirement of the head of the cabinet. One question heard today in all quarters, naval, military, diplomatic and civil, was: "What will the United States do and what is the significance of Mr. Bryan's retirement?" That the resignation of the secretary of state had not been without effect was shown by a conciliatory article captioned "America" given most prominent display in double leaded type by the Lokal Anzeiger this article which appears in the position reserved for communication of the utmost importance says:

"President Wilson allowed his first advisor who had made known his pacifist theories to depart in this critical hour. No compromise between their attitudes was possible, therefore. Attempts to reach a peaceful solution, nevertheless, should not be abandoned. This is not the counsel of faint-heartedness but of an earnest will not to make worse our political relations. Considerations of humanity may naturally be taken into consideration so far as the military situation and the policy of the empire will permit.

## NEITHER NEEDS TO MAKE SACRIFICE.

"It easily may be believed that honorable and unprejudiced negotiations between the parties concerned may lead to an understanding. Neither party should sacrifice anything. Neither needs to do so. It is necessary to wait and see whether President Wilson's note leaves the door open for advantageous negotiations. We believe a basis does exist for such negotiations and that this basis can be built upon with the good will of the parties concerned. Our military interests and our judicial standpoint to which we must and shall adhere do not stand in the way of an honest interchange of views which contains a promise of success."

It is not known definitely whether this article was inspired but there is good reason to believe it largely represents the attitude of at least some of those persons responsible for the relations between Germany and the United States. The outcome of the German-American negotiations depends on the extent to which this attitude is shared in other quarters of co-ordinate and higher scope.

WILSON CASE DENIED RE-HEARING  
IN SUPREME COURT THURSDAY

A rehearing of the case relative to the settlement of the estates of John Kilson and Julia Wilson, which was appealed from the circuit court of Scott county was denied in the Supreme court Thursday. There are over 100 acres of land in dispute in the case and the trouble arose over the interpretation of a deed of land given by William J. and Miranda Wilson to their son, John Wilson. Following the death of John Wilson an effort was made by his mother and her two sons to secure possession of the farm under the provisions of the deed. The widow of John Wilson is now a patient in the Jacksonville State hospital. An appeal was taken from the circuit court to the supreme court where the lower court's action was upheld and now the supreme court denies a rehearing.

(Signed) Robert Lansing,  
Secretary of State  
"Ad Interim."

**GIVE BERNSTORFF COPY OF NOTE.**  
A copy of the note was delivered to Count Von Bernstorff, the German ambassador late this afternoon. He declined to comment, saying that would have to be left to the reply of his government.

In diplomatic circles generally, the note seemed to create a favorable impression. In quarters friendly to Germany, it was stated that the document confirmed a belief held since Count Von Bernstorff's recent interview with President Wilson that the critical stage had been passed and that with the American viewpoint clearly before it the German government would be able to find a way out of the dilemma that would satisfy the United States.

Meyer Gerhard, now on his way to Berlin as personal representative of Count Bernstorff is understood to have been instructed to outline the attitude of the American government in a way that will merely supplement the statement of opinion of one

### MANY CIVIL SERVICE POSITIONS OPEN

Commission Announces Examinations to be Held July 10.

The Illinois civil service commission has sent out notices of examinations to be held Saturday, July 10, at the various state institutions, including those in Jacksonville. Application blanks for this examination will be mailed after Thursday July 1st, and all applications must be on file in Springfield before 5 p.m., Saturday, July 3rd. The examinations will be for the following positions: food inspector, salary \$100 to \$150 per month; insurance examiner, salary \$150 to \$200 per month; institution chief clerk, \$100 to \$140; fish custodian, salary \$75 to \$125; assistant canal superintendent, salary \$100 to \$150 per month; pharmacist, salary \$50 to \$70 a month; utility statistician, salary \$100 to \$150 per month; housefather and housemother, salary for couples \$75 to \$100 per month; chief cook, salary \$70 to \$100; carpenter \$60 to \$100 per month; gas engineer, salary \$200 to \$300 per month; service engineer salary \$200 to \$300 per month; telephone engineer, salary \$200 to \$300 per month. Examinations for attendants, domestics and laborers are held every Saturday at the various state institutions.

### A GRAND OPPORTUNITY RIGHT NOW

A choice opportunity to secure a lot of fine millinery and ready to wear goods is now set forth in the full page advertisement of J. Herman whose well known reputation is a guarantee of the strict fulfillment of all the promises he makes. Mr. Herman has been in this city a long time and his establishment has few equals in the state outside of Chicago and the goods he sells have no superior. Both he and his wife are fully in touch at all times with the best in the markets afford and having ample capital and rare experience they are able to bring to the city a stock of goods which are fine and unusual for a place of this size.

The figures set forth in his advertisement and the rare bargains there offered will convince any fair minded person that a fine opportunity to get choice articles at low prices is offered. An inspection will well repay the ladies of this city and vicinity and the rare bargains offered will not fail to attract them.

### JOINED WESTERN TRIP.

Mr. and Mrs. T. S. Bond of South Church street have arrived home after a sojourn of five months on the Pacific coast. They spent a greater part of the time in San Diego with friends. They also made several trips to the Panama Exposition and their entire visit was greatly enjoyed.

W. J. Carlin of Bowen transacted business in the city yesterday.

### WOMEN OF MORGAN COUNTY PLAN FOR STRONG ORGANIZATION

Foundation Laid for Union at Meeting Held Thursday at Nichols Park.

As a result of the meeting of representatives of the various woman's clubs of Morgan county, held at Nichols Park Thursday, the foundation was laid for a permanent federation of all the clubs, a final meeting to be held at the time of the Jacksonville chautauqua. Fifty sat down to the tables at the noon hour and the business session was held in the afternoon, several more arriving to participate in the discussion. The new organization is planned according to rules laid down at the district federation of women's clubs held recently in Pittsburgh. By this arrangement the county vice president serving in the district organization becomes the president of the county organization which honors fell to Mrs. A. J. Ward and Mrs. W. H. Hinrichsen of Alexander was chosen recording secretary and Miss Clara Cobb as corresponding secretary. The executive board of the federation will be composed of these officers and vice presidents from each town to be named at some future meeting. There will also be a number of committees appointed.

The largest delegation present from out of the city came from Murrayville and Woodson was also well represented. The inclement weather interfered with many being present.

One point brought out emphatically in the discussion was that the organization should not be known as a club but a body of women working together for the upbuilding of the home, school and community. The federation expects to include all the various church organizations.

Among those who spoke were Miss Katherine Olmsted, who gave an account of the work the tuberculosis league was trying to accomplish. Miss Annie Hinrichsen spoke of her work in visiting almshouses, jails and similar places over the state. The local almshouse committee will be composed of Mrs. A. H. Dollear, chairman, Mrs. A. A. Curry, Pisgah, Miss Clara Cobb and Mrs. Ben Lutton. Mrs. Ralph Crabtree gave a very interesting address upon what the parent-teachers' association had mean to the community. That organization is planning to bring a speaker from the University of Illinois, for a series of talks.

### BIRTH RECORD.

Born Tuesday to Mr. and Mrs. Joseph Huff, 1136 Elm street, a nine pound daughter, Ruby Alice.

W. J. Carlin of Bowen transacted business in the city yesterday.

### J. E. OSBORNE IS FEEDING MANY CATTLE THIS SEASON

Has Three Hundred Head on Farm Near Murrayville—Large Number of Hogs on Pasture.

J. E. Osborne of Murrayville is one of the most prominent stockmen of Morgan county, although he conducts his operations in a somewhat quiet way. Just now Mr. Osborne is feeding three hundred head of cattle, three hundred head of hogs and a large number of sheep. About twenty-five head of cattle are on full feed, but the other are on pasture only. About a hundred steers were purchased by Mr. Osborne in Kansas City and the average weight at the time was 700 lbs. Others in the herd were purchased from various individuals in the vicinity of Murrayville.

The grass is so heavy this year that Mr. Osborne says that all of the cattle are making good gains. His expectation is to keep all those except the bunch now on full feed on grazing land until October or possibly November. It is not his intention to feed the grazing cattle any corn, as he believes that they will be hard enough at that time to make a very satisfactory showing.

The three hundred hogs weighed from 125 to 150 lbs. and are on what Mr. Osborne terms half feed—that is, he is giving half the quantity of grain that would be considered full feed, and the hogs are making satisfactory gains with this grain and the grass to which they have access.

In addition to his stock Mr. Osborne has quite a large acreage in both wheat and corn and he said recently that crop prospects were never better. It is fortunate indeed that this is the general condition in Morgan county. While some severe losses were suffered by farmers northwest of Jacksonville by the hail and windstorm last Monday, it is nevertheless true that general conditions are very satisfactory throughout the county and the indications are that all crops will be more bountiful than has been true for an extended period of years.

### MAKING TEST ON CATTLE IN STOCK YARDS.

Charles Wood writes the Journal as follows relative to the result of tests he is making on cattle in the stock yards:

"Your readers likely will be interested in the results of tests I am making on my cattle here in the stock yards which I am feeding, and trying to produce 12 pounds of beef and 4 pounds of pork with 70 pounds of ear corn, which I grind cob and all, revolve it in hot water six hours, when five bushels become 20 bushels in bulk."

"I have weighed my cattle the second time and they have gained 4704 pounds on the cattle and 610 pounds in pork, on 16 hogs, on 255 bushels corn and 14 sacks of bran, and 144 bales of clover hay that averaged 75 pounds to the bale, in 44 days, I will feed them 42 days longer. If any one doubts these figures the stock yard company has the weight of cattle and corn fed up to date, which will be reported in full when test is complete."

"It is getting very warm on the cattle, and I may get a less gain next time, but I will do the best I can to hold the same gain, of four pounds a day on my cattle."

"I use one bale of straw each day as bedding and scatter it out at 9 o'clock in the morning, so the cattle will lay down. At noon I feed and scatter a little fresh straw at two o'clock, and they will lay down on it each time; keeps them off their feet most of the time. I feed three times a day, all they will clean up, and every steer eat. Feed one bale of clover hay after feeding mush to cattle."

**ANOTHER SHIPMENT OF OSTRICH AND MALINE BOAS JUST RECEIVED: SPECIALLY LOW PRICED. AT HERMAN'S.**

### G. A. R. ATTENTION.

(Regular meeting of Matt Starr Post this evening at 7:30. Benj. Wood, Commander. C. E. McDougal, Adj't.)

Charles Newman will return to his home in Chicago today after attending the funeral of his cousin, Harvey J. Routt.

### MISS LUCILLE HENRY WON SILVER MEDAL CONTEST.

One of the most successful contests ever held in Morgan county took place recently in Arenzville when Miss Lucille Henry of Woodson won the silver medal contest in declamation. The attendance was good, the program complete and the interest shown by the Arenzville audience was exceptional. The speakers were at their best. Miss Henry excelled by 42-3 points; Miss Frances Coulter of Winchester, ranked second with 42 points; Miss Emma Henry was third with 40 points. The judges were two Arenzville ladies and the pastor of the Concord church.

The musical part of the program was given by Miss Esther Spoons of this city and Miss Mary Daniels of Elkhorn. Special mention should be given as their numbers were greatly enjoyed.

Miss Iris Summers gave "College Oil Cans" in a creditable manner for a girl of ten years. The Arenzville Union was most hospitable in their entertaining and highly complimented for their cordiality.

**ELECTED OFFICERS.**  
The newly elected officers of the Commercial club of Franklin are:

President—Dr. F. H. Metcalf (re-elected).

Vice president—J. O. Ralston, Sec and Tres.—Elmer Roberts.

The new board of directors are: M. B. Keplinger, George Schaaf, W. N. Luttrell, W. C. Calhoun, H. M. Tulipin, Homer Van Winkle and John P. Smith.

**FINISHED PREP COURSE.**  
Mrs. McFall has returned from Eureka College where she attended the commencement exercises. Her grandson, Cecil Megginson, of Woodson graduated from the preparatory department.

# The Suit You Will Like Best Is Here—

Every man has one suit he likes better than the others. He thinks he looks better in it than his other suits. He wears it oftener.

Our aim is to sell only RIGHT suits of this sort.

Fabrics show real individuality—models are distinctive.

A suit to look well on you—Gen Quhart plaids, sand grays, light and tropical weights, \$10 to \$25.

## The Sparkling Straws—

This time of the year an old straw hat in the dancing array of brand new ones is a conspicuous mark. Men who have been putting off a purchase will find no better looking or better values than here:

Sailors, - - \$1.00 to \$3.00  
Panamas, - - 5.00 to 7.50  
Soft Straws, - - 1.50 to 3.00

# MYERS BROTHERS.

Sport Shirts  
\$1 to \$1.50

## At Andre & Andre's June Clearance

### Of Rugs, Carpets, Lace Curtains, Cretons, Drapery Fabrics, Linoleums, Odd Pieces of Furniture, Etc.
